

## DuraMax Stronglasting™ Greenhouses

In choosing a greenhouse for your backyard or garden, the first thing you need to think about is the construction material. Glass can shatter into dangerous pieces and is therefore a safety concern. On the other hand, polyethylene sheets—used in cheaper greenhouses—are flimsy and subject to tearing. DuraMax greenhouses avoid both problems. They **will not shatter or break like glass, nor will they tear like poly sheets**. The walls are made of **unbreakable solid polycarbonate—the same construction material used in bulletproof shielding**. Their strength is further enhanced by a metal supporting structure. The polycarbonate walls are rated as “all-weather durable” so they will never rot or rust. And like glass, they are ultraviolet-resistant. DuraMax greenhouses use only the highest quality materials and adhere to the strictest quality control standards. That’s why they are backed by a Ten-Year Limited Warranty.

10x8 Greenhouse

8x6 Greenhouse

Item	Cubic Feet	External Width x Depth x Height	Door Opening
10x8	474	126.5" x 95.7" x 82.9"	45.1" x 63"
8x6	244	102.8" x 72.1" x 79.8"	40.9" x 63"

- All-Weather Durable Polycarbonate Walls are UV-resistant and Will Not Break or Shatter Like Glass nor Tear Like Poly Sheets
- Metal Reinforced Wall Columns for Superior Strength
- Contemporary Design Will Beautify Your Backyard or Garden
- Adjustable Roof Vent for Temperature Control
- Double Sliding Doors
- Foundation Included
- Includes Door Handle with Padlock Eyes
- Backed by a Ten-Year Limited Warranty

## **Polycarbonate Construction**

DuraMax Greenhouses are manufactured with UV resistant polycarbonate walls and roof panels. The polycarbonate walls provide clarity and eliminate safety concerns with glass. The greenhouses are reinforced with a strong metal structure and are all weather durable which will keep the greenhouse from rusting or rotting.

## **Assembly Made Easy**

The assembly is simple, clean, safe and can be completed in a few short hours. All parts are pre-cut, drilled and numbered for ease of assembly. All you need to provide is a leveled surface of either wood or concrete, the size of the desired greenhouse. In addition you will need a drill with a #1 phillips head, hammer, measuring tape, pliers and a ladder.

## **Packaging**

The greenhouse is packaged in a heavy duty shrink wrapped cardboard box. The packaging includes all components, hardware and an illustrated step by step instruction booklet.

## **Ten Year Warranty**

DuraMax Greenhouses utilize the best quality materials, reliable manufacturing techniques, strict quality control and is backed by a Ten-Year Limited Warranty.

### **Please do the following prior to your DuraMax Greenhouse Purchase**

- Check with your local city hall for building ordinances & CCR's.
- Be sure that intended placement of building is within your property lines.
- Measure the size of the intended building site and make sure you have a level wooden or concrete foundation (Foundation Kit included).
- Do not build shed over utility lines (i.e. gas, electrical, telephone, cable, etc.).
