

13' x 10' Gable Roof Insulated Building

Duramax Insulated Modular Housing introduces our next unique energy efficient building - Gable Roof Building. Our Duramax Building provides multipurpose solutions for homeowners and businesses. You can use this as a cabin, office, workshop, hobby room, or secure outside storage space or equipment enclosure.

Installation is simple and fast. All of the components used to construct the prefabricated building have been prepped at our factory. Faster installation means less disruption, less mess.

- Includes a metal foundation that allows building construction on just about any flat, level surface. Concrete is NOT required.
- Pre-painted galvanized inner and outer walls provide a stable, impenetrable wall.
- Thick fire-retardant CFC-Free B2 polyurethane insulation offers excellent thermal and acoustic performance.
- Easy-to-assemble bolted tongue and groove wall panel assembly. Provides fast assembly and disassembly. Parts are pre-cut, drilled and numbered for fast simple installation.
- Snow load of 30 lbs/sqft - one of the strongest do-it-yourself buildings.
- Secured door with a deadbolt lock can be configured on any side of the building.
- Step-by-step instructions included.
- Extension kit available in 3 ft. increments and mountable in either side.
- 7 Year Limited Warranty.

CHECKLIST Prior to Building Purchase

- Check with your local city hall for building ordinances & CCR's.
- Be sure that intended placement of building is within your property lines.
- Do not construct building over utility lines (gas, electrical, water, telephone, cable, etc).
- Measure the size of the intended building site for ample space and make sure you have a level wooden or concrete foundation.

FEATURES

- Door Knob and Deadbolt Lock Included

- Reinforced with Metal Columns and Truss
- CFC Free Poly-Urethane Insulation (Fire Retardant) Panel Walls

- Galvanized Metal Foundation Kit

- One Window Kit Included
