

All Weather Durable Outdoor Storage Solutions

Bicycle Storage

- Hot-dipped galvanized steel painting process
- Adjustable bicycle tracks
- Full width double lockable doors
- Reinforced groove walls provide greater strength

Features

Lockable Inside/Out Door Panels

Wide double doors with metal frame support

Strong roof metal truss support, reinforced groove walls, adjustable/removable bicycle tracks

Built from our thick, galvanized steel panels with an integral metal floor and large locking double doors, this bicycle storage locker is a secure space for all your mountain bikes, road bikes and general cycling equipment. The bike tracks are adjustable to fit any bike, and can be removed for storing larger items. The reinforced roof and cross metal bars on each door add strength and security for your peace of mind. This can be use for motorcycle storage as well.
