| <del>SE</del> | <del>SHELF SUPPORT END CAP</del> | <del>4</del> |
| SS            | SHELF SUPPORT                    | 2            |
| S9            | SHEET METAL SCREW (not included) | 8            |

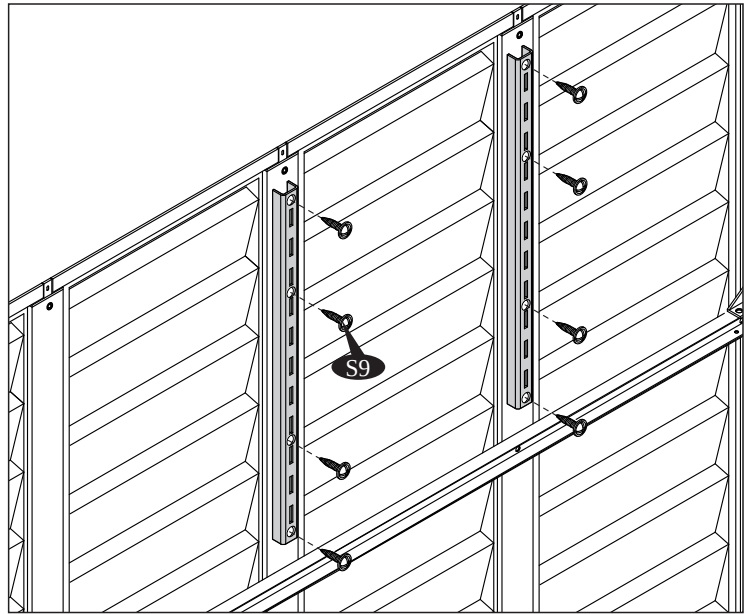

1. Place the shelf stand (ST) on top of the column, and mark the hole position through the shelf stand. Make the hole position on near by column.

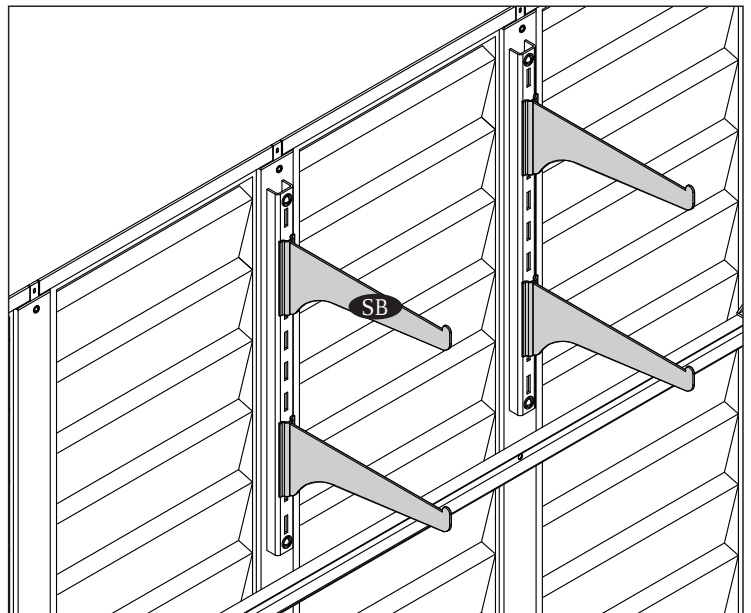

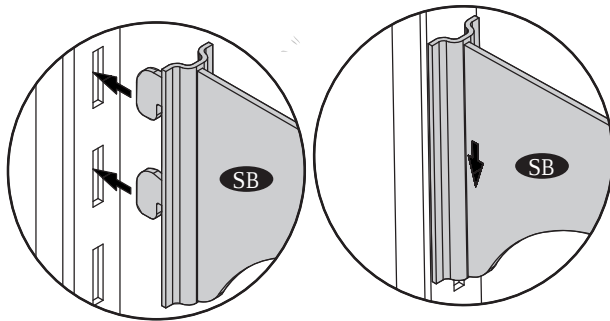

2. Make dia. 2.5mm. holes on the two columns. Make sure the hole distances are equal from top of the column.

3. Fix the shelf stand (ST) to the column with (S9) screws.

4. Insert the shelf bracket (SB) into the shelf stand (ST) slots and pull it down. See fig.

5. Place the shelf support (SS) on top of the shelf bracket.
