BUYER'S GUIDE

IS AN EZFIT SHED RIGHT FOR ME?

Many people looking to buy a shed or structure are considering whether they should buy one pre-made, buy a kit, or build it themselves from scratch.

Take a look at the chart below to see how EZFIT compares to the other options you may be considering:

	EZFIT	Big Box Kits	Build from Scratch	Pre-Built Shed
Estimated Time to Build	1-2 Weeks	4-6 Weeks	6-10 Weeks	N/A
Price Level	\$\$	\$\$	\$	\$\$\$
Pre-Built Walls & Doors	Yes	No	No	N/A
Pre-Cut Wood	Yes	Yes	No	N/A
Contractor-Grade Materials	Yes	No	N/A	N/A

What are the steps to get my EZFIT structure?

1. FIND THE RIGHT STYLE

EZFIT sheds come in a number of styles to fit all sorts of uses, preferences, and aesthetics. Some kits are farmhouse style, some minimalist, some modern. Find the one that's right for you on our website EZFITsheds.com!

2. CHOOSE YOUR OPTIONS

All of our EZFIT structures come with customization options to fit your needs. Some of the top options to consider are:

- **Quick Ship:** If you would like your shed as quickly as possible, see which sizes are available for quick ship! Our in-stock quick ship items are ready to ship within 72hrs of purchase.
- **Floor Kit:** If you do not have a pre-made concrete slab, we recommend buying a floor Kit that is prepared to assemble. See our website or contact us for more instructions on how to prepare the ground for your shed.
- **Design Options:** Many of our sheds offer an optional ramp for easy storage and access of all your right design for you!
- **Optional Ramp:** Got Vehicles? Many of our sheds offer an optional ramp for easy storage and access of all your rolling equipment.
- **Custom Structure Options:** We offer some custom structure options that are not standard on the sheds, such as custom wall heights and custom door/window placements. **Contact Us at support@shedsforlessdirect.com**

3. BUY YOUR MATERIALS

There are some materials that do not come with the EZFIT kits because they are more affordable bought separate. These are:

Roof Material:

- Shingles: We recommend Certainteed, Owens-Corning, GAF
- Metal: We recommend Premier Metals.

Paint:

- We recommend Sherwin-Williams A100 or Latitude 15yr, Exterior Satin

Tools:

- The tools we recommend for kit assembly are:

Cordless Drill

Chalk line

Tape Measure

Speed Square

Step-Ladder

Level

Circle Saw

Hammer or Pneumatic Nailer

4. UNPACK AND BUILD YOUR KIT

Our shed kits are often delivered with lift-gate assistance. You can also request forklift assistance to take the kit where you need on your property.

We recommend having two people for unpacking and building your EZFIT structure.

5. ENJOY YOUR NEW EZFIT STRUCTURE!

Once you're finished, you'll be able to enjoy your new beautiful structure, having a place to store all your tools and equipment, or a second space for your home office, gym, hobbies.

SO WHAT ARE YOU WAITING FOR?
